HEALTH AND HYGIENE PROTOCOLS during COVID-19 pandemic

To ensure safety and comfort of our Guests we follow the following measures:

- Special cleaning and high disinfection frequency in all areas in hotel and restaurants.
- Implementation of appropriate safe distancing measures for guests and hotel's employees.
- Special procedures of hygiene and social distancing in swimming pool areas.
- All kitchens follow Hazard Analysis Critical Control Points (HACCP).
- Application of special procedures for food and beverage serving.
- In order to guarantee the proper disinfection and room cleaning: Check-In is available from 3pm and Check-Out till 11 am.
- Disinfection and additional ventilation of Guest Rooms.
- Masks, protective equipment and disinfection material available for all Guests and Employees.
- Washing of the linen in high temperatures (70 °C +) and preservation of the clothing according to official guidelines.
- Special places to check body temperature and look out for respiratory symptoms of Guests and Employees.
- The doctor's contact and presence at specific times in the hotel - more information available at Reception desk.
- All our Employees are properly trained according to the Greek Tourism Ministry program.
- Non-hotel guests are prohibited from entering hotels.
- Logbook with all necessary data under GDPR regulation compliance is kept to guarantee the proper communication for Public Health Institutions.
- All our hotels have assigned HEALTH COORDINATOR - you can ask at Reception desk.
- Complete information about all procedures followed in our hotel is available on our Website or at Reception desk.
- “HEALTH FIRST” Certification - ensuring compliance to Greek government orders, guidelines and health advisories on the COVID-19.
